2. GLEAMING GLOBE

Inspired by the city lights at night, this luminaire comprises precision-cut metal strips formed into a globe. An exploration of simplicity and geometric form, it will provide sophisticated illumination to a favourite spot in the house.

3. BELLA ISABELLA

From the Isabella series, we show a vanity, freestanding cabinet and mirror in solid ash with a whitewashed finish. The compact vanity appears to be a double vanity with two faucets, but it has one carved marble sink. The mirror frame is equally clever, being sculpted into a functional shelf.

4. DROP ME A LINE

Bring back the almost-lost art of letter writing with the Theodore Alexander campaign desk. Embossed "woven" jet-black leather wraps the stainless steel desk. The hinged top folds back to reveal a natural figured-sycamore interior. The desk is set on square, tapering ebonized legs with stainless steel feet.
